

MSV Trackdays EnduroKA Series

Motorsport UK Series Permit No: RS2021/026

Existing regulation

17.6 The control wheel is a Compomotive Alloy: COMPMOTIVE ML1357 13x5.5 et30 4x108, which must be used at all times. Use of the Compomotive Alloy will require a new stud and nut per regulation 17.5.

Proposed additional regulation

17.6 The control wheel is a Compomotive Alloy: COMPMOTIVE ML1357 13x5.5 et30 4x108, which must be used at all times. Use of the Compomotive Alloy will require a new stud and nut per regulation 17.5.

17.7 Teams unable to obtain the Compomotive wheel stipulated in 17.6, may apply to the series organisers for permission to run an original Fiesta XR2i wheel 13x5.5 et30 4x108 until such time as the control wheel becomes available.

17.8 All four wheels on the car must be the same at all times, either 4x Compomotive or 4x Fiesta XR2i. No mixing of wheel types is permitted at any time.

Reason:

Force Majeure

Footnote:

- Teams are responsible for ensuring that alloy wheels are in good condition and fit for purpose
- The Fiesta XR2i option will not continue past the end of the 2021 season
